# KNIT FOR NATURE

In 1989, renowned knitwear designer Ruth Herring co-released the book **Knitting Wildlife**. Complete with original knitting patterns and celebrity photoshoots, it helped raise vital funds for WWF at the time.

This year, the patterns have been lovingly re-imagined by Ruth in this limited-edition collection. Offering us a modern take on vintage knitwear, Ruth blends retro charm with contemporary fashion.

Whether your knit is a personal project or a gift that's made to last, craft for a cause and help us raise awareness of endangered wildlife.

At WWF, we're bringing our world back to life. Nature is in freefall, and we're urgently tackling the underlying causes that are driving the decline. We're finding solutions so future generations inherit a world with thriving habitats and wildlife.

It's a huge challenge, but if we all act together, there is hope.

We hope you enjoy this free pattern inspired by the wild tigers we're working to protect from the illegal wildlife trade and habitat loss. If you can, please consider making a donation so we can continue this vital work and protect the places they call home.

### Top tip

Opt for 100% British wool for the most sustainable option, and avoid synthetic fibres like acrylic and nylon, as well as cashmere, mulberry silk and mohair

## To Print

To scale up and tile a print on A4 paper (i.e., print a large image across multiple smaller sheets that can be assembled into a poster), the most common and effective method is using the **“Poster”** or **“Tiling”** feature in a PDF viewer like Adobe Acrobat Reader. Printer instructions may vary for scaling up and tiling. Please refer to your manual.
